I.D.T. SRL SOCIETA' BENEFIT

Who We Are

I.D.T. S.r.l. Società Benefit is a young SME from Turin founded in 2016 with the idea of bringing Open Source into the world of industrial automation.

With expertise in electrical, electronic, mechanical, and software fields, the company is currently **divided into 3 business units**, respectively linked to industrial automation, embedded systems development, and software development and Cloud integration, designing, developing, and internally implementing automation and IoT systems at 360 degrees.

Our *Mission*:

We update standards, thinking out of the box

Our goal is *to solve your problems* in an innovative, fast and flexible way and, whenever is possible, avoiding vendor lock-in.

While being ESG compliant and supporting our clients in reaching their sustainable development goals!

Women in an industrial world

From...

2016: beginning of our collaboration with *ITS Meccatronica e Aerospazio*

To...

2024-25: Gender Equality Certification UNI PdR 125

Impatto sociale 2023-2024

1

I.D.T. has launched a *Gender Equality Plan* within the company (goal for 2024/25). Currently, women represent almost 1/4 of the company.

2

I.D.T. promotes *flexible working practices* (smart working and flexible working hours).

3

In collaboration with *Caritas Torino*, I.D.T. provides growth opportunities for marginalized individuals from the Torino prisons. The company also contributed in 2023 to social initiatives by the Pudens Foundation and the Aief Foundation.
